

DISASTER MINISTRY TRAINING

Training for basic disaster ministry

An 8-hour online training course supporting the clergy in providing an appropriate response to the community in the event of disaster and in helping the community prepare for a disaster is offered in this user-friendly site.

Community Arise is a groundbreaking program that brings major faith community domestic disaster training under a common umbrella curriculum.

The [Community Arise](#) curriculum is appropriate for a wide range of audiences: potential volunteers; faith-based and secular community groups; disaster response groups (long-term recovery, pre-disaster planning, or immediate post disaster); and denominational and community decision-makers.

This website provides access to the materials available through Community Arise.

- If you want to know [about disasters](#)
- If you are responsible for [training](#)
- If you want to [volunteer](#)

Classroom Materials

Community Arise includes the modules listed below. Click on the link for a more detailed description and access to the downloadable training materials. Each module has an Administrator's Guide, a must-read to understand the module and how to teach it.

1. [Basic Disaster Ministry](#)

This introductory module provides basic information about disasters and the system that exists for responding to disaster, in particular the faith-based response to disasters. This module should be considered to be a prerequisite for the

other modules. Most of the information is not repeated in the other modules.

2. [Long-Term Recovery](#)

This module is designed to be used at a disaster site to assist participants in establishing a long-term recovery organization.

3. [Managing Volunteers in Disaster](#)

This module introduces the concepts and procedures for managing volunteers in a disaster.

4. [Disaster Case Management](#)

This module provides an overview of the case management process in the context of disasters.

5. [Technology-Caused Disasters](#)

This module provides an overview of technology-caused disasters, explores how they are different from natural disasters, and outlines appropriate response strategies.

6. [Emotional and Spiritual Care in Disasters](#)

This module provides an overview of the unique and important role the faith community plays in providing emotional and spiritual care during times of disaster in the United States.

7. [Children, Youth, and Disaster](#)

This module presents the unique needs of children and youth following a disaster and how to provide them support and care.

8. Vulnerability to Disaster (Coming Soon)

Helping those most in need is at the heart of the faith-based disaster response. This brief module explores what vulnerability is and how to best help those with unmet needs.
