

The background of the slide is a bright yellow with a subtle, mottled texture. On the left side, there are two clusters of pink flowers with green leaves. The top cluster is in the upper left corner, and the bottom cluster is larger and spans across the bottom of the slide. The flowers have five petals and a yellow center. The leaves are a vibrant green with visible veins.

Mexico: Piedras Negras

Bobby Hausser, Team Leader

St. Luke's, San Antonio
