This summer scores of DWTX youth will be headed for far-flung places to be God’s hands and feet. Christ Church (San Antonio) will send youngsters to St. Louis, Waco, and to Guatemala; St. David’s (San Antonio) youth will head for Haiti, and TMI is going to Costa Rica May 29-June 4.

Jacob Carter (TMI rising senior) reports that the TMI team will be working and staying in Arenal and Alejuela (central and northern portions of the country) working with children and serving those in need. Jacob sees this mission as "a chance to step away from the hustle and bustle of our usual day to day lives and just let go. This puts us in a situation where we are no longer worrying about what the next day will bring, but we are instead entirely committed to the service we are doing in the present."

Jacob, a veteran of four mission trips, has an idea of what to expect, but all that matters to him is the work he and his teammates will do and where they will go. Jacob says, "It may be at a school or a church or an orphanage, but the key is that we will be spending our time there entirely committed to helping out the local people in whatever way we can."

While so many of our diocesan youth will be getting out of themselves to help others, they would likely agree with Jacob in saying, "Being able to go on these
mission trips has made a big difference and helped to mold me not only into a better servant leader but also as someone who appreciates the world around him and the opportunities that I have been given.

Pray for all our youth teams this summer as they go: May 29-June 4 TMI - Costa Rica; June 9-16 Christ Church - St. Louis; June 19-July 2 Christ Church - Guatemala; July 17-23 St. David's - Haiti.

MULTIPLICATION IN UGANDA

A few months ago, many of you sent gifts to set up a computer lab for the girls at Canon Njangali High School. Their most circumspect principal took the funds that had been sent, and instead of 10 computers and 1 printer, she was able to buy 12 desk tops with accessories, 1 lap top, one generator (to utilize during blackouts), and one laser jet printer/copier/scanner. The regional government was so impressed, they made the center a district computer location for other students and added 100 more computers.

THANK YOU FOR YOUR GENEROUS HEARTS IN REACHING OUT TO THESE GIRLS. And thanks be to God for multiplying the gifts in ways we could never have thought or imagined.
